

Welcome address to the participants in Russian Health Care Week and MedTravelExpo 2020. Medical Clinics. Health and Spa Resorts

Dear colleagues and friends,

I would like to welcome you at the Russian Health Care Week 2020 international forum and the MedTravelExpo 2020. Medical Clinics. Health and Spa Resorts international exhibition, which is the only professional tradeshow of the country's potential in exporting medical services and also a platform for demonstration of unique foreign experience in this field.

Russian Health Care Week traditionally presents the best Russian and foreign practices, equipment, technologies, large-scale programmes implemented by public and private structures, associations and unions at EXPOCENTRE Fairgrounds. The Week annually allows uniting the efforts of leading experts in the implementation of national projects aimed at increasing the duration of active, healthy life of the population and the growth of exports of medical services.

The Civic Chamber of the Russian Federation, as one of the initiators of the development of medical services export, traditionally holds part of MedTravelExpo supporting events, which allow to discuss the experience of the regions in the implementation of the Federal Project "Development of Export of Medical Services", to build a direct dialogue between the heads of medical centers and representatives of the State Duma of the Federal Assembly of the Russian Federation, the Federation Council of the Federal Assembly of the Russian Federation, the Russian Ministry of Health Care and other authorities.

I am sure that after the pandemic, meetings at Russian Health Care Week will be of a particular value — we all need to discuss a lot of things so that the same will never happen again on such a global destructive scale.

The pandemic has shown how small and vulnerable our world is, how fragile human health is, regardless of the country where we live. But at the same time, we have gained expensive experience in the most difficult conditions, and it is our duty to ensure that this experience, for which we have paid hundreds of lives of our colleagues and patients, is not lost...

I am positive that at the Week participants will find reliable partners and will be able to conclude mutually beneficial contracts.

I wish all guests and participants in Russian Health Care Week and MedTravelExpo successful work!

Nikolay Daikhes

Deputy Chair of Commission on Health Care and Public Health Development of the Civic Chamber of the Russian Federation
Chief Non-staff Otolaryngologist of the Russian Ministry of Health Care
Director of the Federal State Research and Clinical Center of Otolaryngology
Corresponding Member of the Russian Academy of Sciences, Doctor of Medicine, Professor
