

Dear friends,

On behalf of Expocentre let me welcome the participants in the Russian Health Care Week 2017. The Forum brings together medical community, showcases the latest medical achievements, and identifies development prospects of the Russian health care.

This event is organized by the Russian State Duma, the Russian Ministry of Health Care and Expocentre AO. It is supported by the Russian Council of the Federation, the Russian Ministry of Industry and Trade, the Moscow Government, the Russian Chamber of Commerce and Industry, and the World Health Organization.

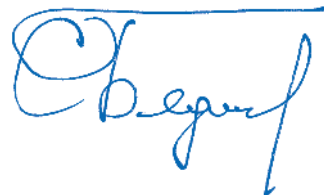

The exhibition features the latest medical developments especially in disease prevention and healthy lifestyle promotion, new methods of diagnostics and medical treatment. This year the Week features not only recognized trade shows such as Zdravookhraneniye and Healthy Lifestyle but also new project MedTravelExpo 2017. Medical Clinics. Health and Spa Resorts devoted to medical and wellness services, health improvement and medical treatment.

The Russian Health Care Week 2017 includes an important event in non-communicable disease prevention and promotion of healthy lifestyle – the 8th International Forum 'For Healthy Life' organized by the Russian State Duma and the Russian Ministry of Health Care.

I am positive the Russian Health Care Week will contribute to addressing the most relevant issues of modern medicine and improvement of the Russian health care system.

I would like to wish you good health, useful and effective networking!

Sergey Bednov
Director General
Expocentre AO
